

Online TRE Certification Timeline

Personal TRE® Process

Online, 2 Days

Module 2

Learn how to safely teach the TRE to individuals. Deepen your understanding and application of polyvagal theory. Learn how to create safety for people to meet their bodies.

Between Module 2 and Module 3:

- Complete second 20 hours of journaling of personal TRE process (40 hours in total)
- Complete personal TRE tremoring sessions facilitated by Mentor
- Start teaching TRE to individuals in single sessions. Record sessions and receive supervision on your teaching (min 2 supervision sessions on your teaching by Module 3)
- Start and record case studies of working with 2 different individuals over at least 3 sessions
- Read required literature and write short report
- Recommend gap between modules is 6 weeks to 6 months

Teaching TRE® to Groups

Online, 2 Days

Ongoing Supervision

Supervision is an essential component of the training. Minimum requirements are 4 sessions on your personal process, 4 on teaching individuals and 4 on teaching groups. More supervision may be required by your TRE Mentor, depending on your skills and background.

Useful, voluntary, tools for support in addition to mandatory supervision:

- Peer support sessions; practice teaching TRE with co-trainees
- Online supervision groups facilitated by TRE Mentors
- Online TRE College Courses to deepen your theoretical knowledge
- Assisting TRE Mentors with groups and workshops

Ongoing and Final Certification

Online or Face to Face, Min 1 Session

Module 1

Learn how to safely start and stop natural tremors. Core principles of grounding, self regulation and avoiding freezing, flooding and dissociation will be taught.

Between Module 1 and Module 2:

- Minimum 20 hours of journaling of own TRE Process
- Minimum 2 personal TRE tremoring sessions facilitated by your TRE Mentor
- Read required literature and write short report
- Recommend gap between modules is 6 weeks to 6 months

Teaching TRE® to Individuals

Online, 2 Days

Module 3

Learn how to facilitate the tremor process in small groups. Develop skills to explain TRE and ground and regulate diverse groups. Learn how to make group interventions to contain and support safety.

Between Module 3 and Final Certification session:

- Complete required teaching, write ups and supervision of individual case studies
- Complete required teaching, write ups and supervision of groups
- Read/watch required literature/media and write short report

Supervision with your TRE Mentor

Online or Face to Face, Min 12 Sessions

Assessment

There are ongoing assessments of your skills with your TRE Mentor. Prior to Module 2 you will develop a learning plan to decide whether to continue to focus more on your personal process before seeking to teach TRE to others. Graduation depends on a successful Final Certification session.

Final Certification

- When all written and practical elements are complete and agreed with your TRE Mentor there is a Final Certification session with your Primary Certification Trainer
- Minimum time to complete is 12 months
- Maximum time to complete is 24 months
